

INTERNATIONAL CONGRESS ON
POLYMERS IN CONCRETE

DEUTSCHE
BETONWERKSTOFFE

ICPIC '04

11th International Congress on
Polymers in Concrete

2nd – 4th June, 2004

at BAM, Berlin, Germany

PROCEEDINGS

*Edited by M. Maultzsch
Berlin 2004*

Contents

	Page
Preface	
<i>Van Gemert, D., President of ICPIIC</i>	IX
Editor's Remarks and Acknowledgements	
<i>Maultzsch, M., Chairman of ICPIIC '04</i>	XI
1 Integrated model for microstructure building in polymer cement concrete <i>Beeldens, A.; van Gemert, D.; Schorn, H.; Ohama, Y.</i>	1
2 Polymers as microcrack stopper in concrete observed in ESEM <i>Schorn, H.; Butler, M.; Hempel S.</i>	11
3 Chemical and physical effects on the microstructure of PCC <i>Dimmig, A.</i>	19
4 Shrinkage of premixed polymer cement mortars at early age <i>Kawakami, M.; Sakakibara, H.; Suzuki, S.; Tokushige, H.</i>	29
5 The determination of thermal parameters of PCC <i>Bode, K. A.; Dimmig, A.; Rudolph, R.; Grodde, E.</i>	37
6 Performance of concrete exposed to the underwater abrasion loading <i>Kryžanowski, A.; Šušteršič, J.</i>	45
7 Effects of polymer on the electrical resistivity of mortar <i>Ando, S.; Osaki, K.; Fukada, K.; Sakakibara, H.</i>	53
8 Influence of biochemical and chemical sulphuric acid attack on microstructure of polymer-cement mortar and concrete <i>Beeldens, A.; van Gemert, D.; de Belie, N.; Monteny, J.; Verstraete, W.; Vincke, E.</i>	59
9 Microbiological and chemical corrosion of sulfur polymer concretes <i>Leszczewsky, M. ; Orlovsky, Y. ; Orlovska, E. ; Ciak, N. ; Erofeew, V.</i>	69
10 Freeze-deicing salt resistance and bond strength of PCC after freeze-thaw attack <i>Bode, K. A.; Dimmig, A.</i>	75
11 Modification of cement concrete by means of polymers in solution <i>Knapen, E.; Beeldens, A.; van Gemert, D.; van Rickstal, F.</i>	83
12 Effects of EVA and HEC polymers on the Portland cement hydration <i>Silva, D. A.; Roman, H. R.; John, V. M.</i>	91

	Page	
13	Effects of slag content and polymer-binder ratio on properties of combined wet/dry-cured polymer-modified mortars <i>Joo, M.-K.; Lee, Y.-S.; Yeon, K.-S.; Ohama, Y.</i>	99
14	The structure of polymer cement membrane waterproofing material <i>Matsubara, T.; Tanaka, K.; Kurumisawa, K.; Shimizu, I.</i>	107
15	Ultrasonic methods applicable to CPC <i>Garbacz, A.</i>	113
16	Concrete surface treatments quantification by means of mechanical profilometry <i>Courard, L.; Garbacz, A.; Górká, M.</i>	125
17	The use of polymers in concrete repair systems for the Persian Gulf region <i>Parhizkar, T.; Maultzsch, M.; Hillemeier, B.; Ramezaniánpour, A. A.</i>	133
18	Standardization of test methods and quality requirements for concrete-polymer composites in Japan <i>Ohama, Y.</i>	143
19	Fundamental study on test condition of performance test for sprayed mortar <i>Shito, K.; Kamihigashi, Y.; Yokoyama, K.; Shidara, K.; Miura, K.; Uchida, Y.</i>	151
20	Study on required performance and its verification of repair materials for concrete structures <i>Muroi, T.; Shito, K.; Yokoyama, K.; Tanikura, I.; Takuwa, I.; Izumo, J.</i>	159
21	Preparation and characterization of polymer modified mortars with the addition of coupling agents <i>Švegl, F.; Šuput-Strupi, J.; Likon, M.; Škrlep, L.; Kalcher, K.</i>	167
22	Mechanical properties and durability of polymer modified concretes <i>Dogan, U. A.; Sengul, O.</i>	175
23	Effects of polymer modification on the mechanical and fracture properties of high and ultra-high strength concrete <i>Lohaus, L.; Anders, S.</i>	183
24	Sound absorption by polymer-modified porous cement mortars <i>Knapen, E.; Lanoye, R.; Vermeir, G.; Lauriks, W.; van Gemert, D.</i>	191
25	Statistical analysis of the synergetic effects in epoxy concretes <i>Czarnecki, L.; Lukowski, P.; Chmielewska, B.</i>	201

	Page	
26	Comparative studies on the influence of humidity in the polymer mortar aggregates <i>Galán Marín, C.; Olivares Santiago, M.; Roa Fernández, J.; Rodríguez García, R.</i>	209
27	Modelling of hardening and cooling processes for epoxy and furane-epoxy polymer concrete products <i>Solovjov, G.K.; Maximov, Y. V.; Polyakov, A. V.</i>	217
28	Characterization of the dilatometric behaviour of filled unsaturated polyester resin <i>Aldrighetti, C.; Cricini, A.; Tassone, P.</i>	223
29	Temperature dependency on creep of resin concrete under flexure <i>Sato, R.; Hayashi, F.; Oshima, M.; Koyanagi, W.; Uccida, Y.</i>	231
30	High strength development through accelerated curings of epoxy-modified mortars without hardener <i>Ohama, Y.; Kumagai, S.; Miyamoto, Y.</i>	239
31	Further investigation of intelligent polymer concrete system utilizing piezoelectric actuator components - Control of torsional vibrations in a thin rectangular beam <i>Blair, B. J.; Li, X.; Fowler, D. W.; Driga, M.</i>	247
32	High-strength polymer-concretes on a basis of acrylic binders <i>Kholstinin, V. V.; Kireev, V. V.; Djachenko, B. I.; Rybalko, V. P.</i>	255
33	Comparative assessment of the properties of polymer concrete compounds with isophthalic and orthophthalic polyester <i>Gorninski, J. P.; Dal Molin, C. D.; Kazmierczak, S. C.</i>	263
34	Dynamic characteristics of resin mortar that allows steel reinforcement <i>Miyzaki, K.; Yamaguchi, S.</i>	273
35	Development of ultra-lightweight polymer concrete for the manufacture of bottom-draining structures <i>Sung, C. Y.; Yang, S. H.; Kim Y. I.</i>	281
36	Mechanical properties of lightweight polymer concrete with steel fiber <i>Sung, C. Y.; Youn, J. N.</i>	289
37	Polyester polymer concrete reinforced with non-metallic rebars: material and structural full-scale study. <i>San-José, T.; Meyer, F.; Heidemann, J.; Ramírez, J. L.; Vegas, I.</i>	297
38	Tension stiffening of reinforced polymer concrete tension member <i>Yeon, K. S.; Jo, K. W.; Kweon, T. J.; Kim, K. H.</i>	311

	Page	
39	Precast polymer concrete building panels: Case studies with longevity experience <i>Wahby, W.; Prusinski, R.</i>	321
40	Rehabilitation and reconstruction of electrical infrastructure utilizing dielectric-grade polymer concrete in post-military conflict scenarios <i>Gunasekaran, M.</i>	329
41	A technically feasible polymer concrete solution to augment significantly the water supply for the city of Chennai, India <i>Gunasekaran, M.</i>	335
42	Innovative chemical fixing system for architectural applications <i>Gedan-Smolka, M.; Lehmann, D.; Pöhlmann, M.; Scheibner, H.</i>	339
43	Beam repair with preplaced aggregate epoxy concrete <i>Murray, M.</i>	345
44	Coatings which show higher ecological awareness <i>Erkens, U.; Roloff, T.; Nagorny, U.</i>	349
45	Modified organophosphate compounds for protective coating of concrete <i>Nikitjuk, A. I.; Zinovich, Z. K.; Kireev, V. V.</i>	359
46	Restoration of fair-faced concrete using different types of polymers <i>Raupach, M.; Wolff, L.; Walk-Laufer, B.</i>	367
47	The potentials of improving the resistance of concrete from the Impact of frost and salt by applying the polymer additive and PCC <i>Rsumovic, M.; Tomic, I.; Zec, M.</i>	375
48	Response of industrial floor to impact loading <i>Stirmer, N.; Ukrainczyk, V.</i>	383
49	Blistering of epoxy industrial floor on concrete substrate: phenomena and case study <i>Ignoul, S.; van Rickstal, F.; van Gemert, D.</i>	393
50	Self levelling mortars - Raw materials, test methods and application properties <i>Pakusch, J.; Pietsch, I.; Denu, H.-J.; Maier, S.; Blask, O.</i>	401
51	Water permeability of polymer-impregnated concrete based on low volatile methacrylate monomer <i>Fukuzawa, K.; Funato, T.</i>	409
52	Long-term performance of surface protection systems for concrete <i>Kühne, H.-C.; Maultzsch, M.; Wolff, L.; Meng, B.; Raupach, M.</i>	417

	Page	
53	Special properties of the polymer sulfur modified concrete <i>Orlovsky, Y. ; Zhuk, N. ; Leszczewski, D. ; Parchomenko, R. ; Korolew, E.</i>	429
54	Optimisation of mix-proportion of PMC for thin overlay <i>Šušteršič, J., Zajc, A.; Leskovar, I.</i>	437
55	Post-crack flexural performance of high strength fiber-reinforced concrete with latex-modification <i>Xu, H.; Mindess, S.; Kazunori, F.</i>	445
56	Experimental study of the behavior of composite grids reinforced concrete <i>Langlois, V.; Fiorio, B. ; Beaucour, A.-L. ; Cabrillac, R.; Gouvenot, D.</i>	453
57	Polymer sulfur concretes reinforced with glass fibres <i>Leszczewski, D. ; Orlovsky, Y. ; Margal, I.</i>	461
58	Improvement of textile reinforced concrete by polymer additives <i>Dilthey, U.; Mund, F.; Raupach, M.; Schleser, M.; Walk-Lauffer, B.</i>	469
59	Performance of unprotected aramid fibers in prestressed glass concrete <i>Vilkner, G.; Meyer, C.</i>	477
60	A comparison between silica fume and super fine fly ash in sprayed polymer fibre reinforced concrete <i>Jolley, D.; Kruger, D.</i>	485
61	Durability aspects of polymer composites materials for concrete repair <i>Frigione, M.; Aiello, M.A.; Leone, M.</i>	495
62	Strengthening of reinforced concrete beams with CFRP sheets <i>Shehata, I. A. E. M.; Araujo, C.; Shehata, L. C. D.</i>	503
63	Strengthening of constructions with fibre reinforced polymer composites <i>Ignoul, S.; Brosens, K.; van Gemert, D.; Ahmed, O.</i>	513
64	A development of new glass fiber-reinforced composite sheets <i>Byun, K.-J.; Song, H.-W.; Lee, C.-Y.; Kwon, S.-J.; Byun, J.-H.</i>	521
65	Bond properties of FRP bars to concrete <i>Wang, B.; Ou, J.; He, Z.; Zhang, X.</i>	529
66	Corrosion protection of steel-reinforced concrete wrapped in fiber-reinforced plastic <i>Whitney, D. P.; Jirsa, J. O.; Wheat, H. G.; Fowler, D. W.</i>	537

	Page	
67	Interfacial areas between cement pastes and epoxy resins - A multi-technique approach <i>Benzarti, K.; Gonon, L.; Baeta Neves, M. I.; Chehimi, M. M.</i>	547
68	Flexural rigidity of MMA-modified glassfiber-reinforced plastic composite pipe <i>Yeon, K. S.; Choi, J. Y.; Jeong, J. H.</i>	555
69	Specific action of some polysaccharides on cement and mortar hydration <i>Pourchez, J.; Peschard, A.; Grosseau, P.; Guilhot, B.; Guyonnet, R.; Vallée, F.</i>	563
70	Wedge splitting test: a test to measure the polysaccharide influence on the adhesion of a mortar on its substrate <i>Bertrand, L.; Maximilien, S.; Guyonnet, R.</i>	569
71	Lightweight concrete with polymer aggregates of waste plastics <i>Herold, G.; Müller, H. S.; Angerer, G.; Geißler, A.</i>	577
72	Glass waste valorization in advanced composite materials <i>Bignozzi, M. C., Saccani, A., Sandrolini, F.</i>	587
73	State of the art in concrete-polymer materials in the U.S. <i>Fowler, D. W.</i>	597
74	Recent progress in research and development activities of concrete-polymer composites in Japan <i>Ohama, Y.</i>	605
75	Correction of the consistency of SCC by re-dosing superplasticizer <i>Grübl, P.; Lemmer, C.</i>	613
